

Paperless Payroll No Longer a Pipe Dream

The next time an employee gets his or her pay stub, it could be as easy as opening an email.

NEBS PAYweb.ca is now offering E-stubs, a service that provides Canadians their pay stubs via email. Emailing pay stubs means that payroll has the potential to be totally paperless. This is great for businesses with branch offices or employees who are on the go. They will no longer have to go into the office to pick up their pay stub.

E-stubs are delivered electronically and are password protected, so only the employee can download the PDF file. It can be sent to any email service, including free email accounts that are available online.

NEBS PAYweb.ca is the first Internet payroll service developed by Canadians for Canadians. The E-stub service is being used across Canada by small-and medium-size businesses and municipalities, and is convenient for everyone. Studies show that 85% of employees currently have their pay directly deposited into their bank accounts and E-stub service works hand-in-hand with that process. The ease of direct deposit, with the convenience of E-stubs, makes for an efficient payroll process.

E-stubs also save businesses money, as they will no longer need to pay someone to manually distribute pay stubs. Not to mention the savings in paper, postage, and printer supplies.
